

GM&B can help you turn on the lights.

Now, we know what you're thinking. Ad agencies are expensive. And if GM&B were one of those nationwide mega-agencies you'd be right. But we're not.

We're streamlined and focused. We don't have dozens of staffers adding billable hours to your invoice. Instead, we offer a small, dedicated team of professionals, led by GM&B President, Tom Griffith. Tom's a seasoned pro himself, with mega-agency experience and more than 36 years in the advertising industry. An award winning designer who will create your ad campaign personally. And answer the phone when you call.

Since 1986, we've been doing everything the big agencies do. But we do it without the frills that waste your money. With GM&B you'll get targeted advertising, based on sound marketing principles and time-tested methods. You'll also get personal service. Direct, honest communication. Top quality creative that gets results. All at a price that won't empty your bank account.

Call GM&B today for a free consultation. We'll shine the light on your business, and keep it light on your bottom line.
